

October 22, 1926
Chicago, Illinois

My dear Philip,

Thank you very much for your letter, and I am sorry I was not able to reply to it sooner. There has been so much to do here, and I hope you don't mind my not answering it immediately.

My plans are completely changed. This tour has been a bit too much, and doctors have advised me strongly to stay in California and not go to India; so we have decided to return immediately to California.

I am truly sorry that I shall not see you all as soon as I expected; but we shall have some fun next year when I come some time in May.

I saw your article with regard to the flowers at Eerde in the Herald, and I am sure you will make it a great success and make Eerde into a real wild flower-garden, which will be very delightful.

I had a short note from Noomi, and she seems to be happy and working hard.

With much love to you,

Yours,

Krishna
