My dear Philip, I have read your letter of Dec 20th. I am very glad that your friend Mr. Rossmark, whom I remember well, wrote to me, as I like, as you know, to have outside opinion. I am infinitely sorry all this has happened & this kind of foolishness must be stopped. People don't seem to realise that a big thing it all is & how we should go about it to avoid it to the views of the Masters. I am awfully sorry, Philip, old chap & when I come we can settle definitely along what lines side should be developed. I apologise to them all & their true behaviour.

I am glad you had a nice time in Norway. I have appointed Lomi Tagge as the National Representative for Sweden. I know she will do good work there.

I hope ^{this} next year's camp will be well & I am glad you have chosen the Bestemarbegg as the camping place. We must make it a great success.

I hope Abrams' treatment has done
you good.

My dear Philip, has been unwell again &
may go to Cjai, where he will
lay on but I shall be present at
the Cuneen Congress, and stay on a while
in the Corde, if I may, so that we
can arrange & plan out things.

We shall leave, probably, for
Missa at the end of Feb and
my dear Philip, we have
a great work to do & we must do it
well & carefully.

With much love
to
Krishna

Yours truly,
